

Sabah Timber Industries Association (STIA)
Greening Malaysia Programme – 100 million Tree Planting Campaign

Sabah Timber Industries Association (STIA) actively carried out tree planting activity together with members, schools, Ministries, including Government agencies and other business chambers in support of Greening Malaysia Programme – 100 million Tree Planting Campaign.

Since the programme launched in January 2021, STIA has engaged with various agencies for tree planting activity and recently has collaborated with few schools to promote public awareness and nurture the mindset of younger generations on the importance of replanting towards tackling climate change issues and maintaining the green and forest cover in the country.

To date, a total of 26 tree planting activities with almost 1000 seedlings (Laran and other plantation timber species) have been planted in various districts around Sabah. The planting data was submitted directly to Sabah Forestry Department and recorded in 100 Juta Pokok portal at: www.100jutapokok.gov.my.

Activities implemented so far:

- November 2021: Tree planting with Ji Her Charity Society

STIA Committees with Ji Her Charity Society and Kota Kinabalu Forest District Officers

The Association appreciate the donation of seedlings from Jawala Plantation Industries Sdn Bhd and Zillion Fortune Sdn Bhd (for Laran) and Sabah Forestry Department (for other species).

Industry is fully supportive of the national green initiative and STIA will give full support/assistance to any NGOs that are willing to collaborate in tree planting event. This is to ensure the success of the Greening Malaysia agenda by planting 100 million trees across the country where Sabah has pledged to plant 40 million trees by 2025.

Those interested to participate in this programme, please contact STIA's secretariat via email at stia@stia.com.my, or you may follow The Association's Greening Malaysia efforts at www.stia.com.my to check our latest event and planting progress.

STIA carries out 26 tree planting activities

KOTA KINABALU: Since the launching of the Greening Malaysia Programme – 100 million Tree Planting Campaign in January 2021, the Sabah Timber Industries Association (STIA) has actively been carrying out tree planting activities together with members, schools, ministries, including government agencies and other associations in support of the campaign.

According to its president, Tan Peng Juan, the most recent program undertaken by STIA was a collaboration with schools in Kota Kinabalu area to promote public awareness and to nurture the mindset of younger generations on the importance of replanting towards tackling climate change issues and maintaining the green and forest cover in the country.

The schools that had taken part in the program were SMK Sanzac, Kota Kinabalu, SMK Taman Tun Fuad, Kota Kinabalu, SM All Saints Kota Kinabalu, SRK St Agnes Kota Kinabalu, Chung Hwa Likas, SK Tanjung Aru 1 Kota Kinabalu, SMK Membakut II and SJK (C) Yuk Chin, Tawau.

Tan said that STIA is currently arranging for another tree planting program to be held in Keningau before the end of November.

"To date, a total of 26 tree planting activities with almost 1000 seedlings (Laran and other plantation timber species) have been planted in various districts around Sabah.

"The planting data was submitted directly to the Sabah Forestry Department and recorded in 100 Juta Pokok portal at: www.100jutapokok.gov.my.

"The association appreciates the donation of seedlings from Jawala Plantation Industries Sdn Bhd and Zillion Fortune Sdn Bhd (for Laran), and Sabah Forestry Department (for other species)," he said.

Highlighting 'Laran' as a local Sabah's plantation timber species, the participating agencies, schools, relevant ministries and departments are also informed on the ITP initiative taken by the State Government and Sabah Forestry Department in moving towards sustainable material supply through Forest plantation, Tan added.

"The industry is fully supportive of the national green initiative and STIA will give full support/assistance to any NGOs that are willing to collaborate in tree planting event. This is to ensure the success of the Greening Malaysia agenda by planting 100 million trees across the country where Sabah has pledged to plant 40 million trees by 2025," he said.

Those interested to participate in this programme, please contact STIA's secretariat via email at stia@stia.com.my, or you may follow the association's Greening Malaysia efforts at www.stia.com.my to check its latest event and planting progress.
